PROFESSIONAL SUMMARY

B.E. Computer Engineering student with hands-on experience in Python, AI/ML, and data-driven projects. Aiming to build a career in Data Science and machine learning applications.

EDUCATION

B.E. in Computer Engineering(GTU) Oct 2022 – Jun 2026
Gyanmanjari Institute of Technology 7th Sem SPI: 8.96, 7th Sem CGPA: 8.81

12th Science (PCM) Mar 2021 – Mar 2022
Shree Gyan Guru Vidhyapith 79 percentile

TECHNICAL SKILLS

- **Languages:** Python ,JavaScript ,HTML, CSS, Node.js.
- **Frameworks:** Bootstrap
- **Database:** MongoDB, MySQL
- **Tools:** Unity, Git, REST APIs, Email Services, Chat GPT , gemini AI.
- **OS:** Windows, Linux, MacOS

EXPERIENCE

AI/ML Development Intern
Akantik — On site Jan 2026

• Developed an AI-based personalized cosmetic and home remedy recommendation system using machine learning and Flask to deliver safe, user-specific suggestions based on skin, hair, and allergy data.

Web Development Intern
Challenge Rate — On site June 2025 – July 2025

• Built responsive web pages using HTML, CSS, JavaScript(node.js) , and collaborated on real-world team projects.

AI Intern – Generative AI with ML
FCC, IIT Hyderabad (with Remark Skill Education) — Remote June 2025 – July 2025

• Worked on the project titled **"Story to Audiobook (Voice Gen)"** using Generative AI, applying core ML concepts, and building hands-on solutions.

Full-Stack Web Development Inten
Challenge Rate — On site Sep 29,2025 – Nov29, 2025

• Built responsive React UI components, created RESTful Node.js/Express APIs, and boosted performance with lazy loading and asset compression.

PROJECT EXPERIENCE

AyuraAI Jan 2026
AI & Backend Developer

- Built a personalized cosmetic and home remedy recommendation system using machine learning.
- Link : https://github.com/denayee/ayuraAI

Recipe Sharing Platform Nov 2025
Web development Intern

- Designed recipe sharing platform using MongoDB & Node.js.
- Link : https://github.com/denayee/Recipe-Sharing-web-devlopment-platform

Gan-AI-Story-Converter July 2025
AI intern-generative AI with Ml

- A simple Python web app that converts your input text into an AI-generated story.
- Link : https://github.com/denayee/gan-ai-story-converter

Society Management System Mar 2025

Hackople 2K25, Milople

Team Lead — Full Stack Developer

- Web based society system using Node.js and MySQL.
- Link : https://github.com/denayee/Society-Management-System

Virtual Voyage (AR App) Jan 2025

Techmanjari

Team Lead — Backend Developer

- Innovative Android-based learning app built with Unity and Vuforia to **demystify CPU architecture** through immersive 3D interaction. As Team Lead & Full Developer, you crafted smooth UI/UX and robust logic in C++ and C#, enabling real-time, visually engaging modules for students

CERTIFICATIONS OF SKILLS

- Full-Stack Web Development Internship Certificate — Challenge Rate
- AI/ML Internship Certificate — IIT Hyderabad
- ChatGPT Workshop — L.D. college
- SSIP Hackathon— Participated certificate
- Hackpole Hackathon — Milople Company (Finalist)
